EDUCATION

KLEC (Korean Language Education Center)

Sogang University

06/2019 – Present

Seoul, South Korea

Courses

- Currently attending Sogang KLEC courses in order to achieve solid Korean speaking skills.

Technical Institute

I.I.S. G. Vallauri

09/2012 – 07/2017

Fossano, Italy

Courses

- Programming courses in which I improved my OOP (Object Oriented Programming) knowledge (more specifically C#).
- English course which allowed me to develop a professional technical-oriented English.

WORK EXPERIENCE

Service Desk Specialist

TESISQUARE

12/2017 – 09/2019

Cherasco, Italy

IT company which develops software solutions for supply chain governance and transport management with branches in Milan, Amsterdam, Paris and Munich.

Achievements/Tasks

- Significantly improved my knowledge of SQL due to the daily based interventions in close contact with databases;
- Developed a great problem solving and critical thinking skills as most of the work took place under tight deadlines decided by the client;
- Able to work according to the standards established by the ITIL model.

PERSONAL PROJECTS

Swift Projects (11/2019 – Present)

- Currently studying and making up some project on Swift as a self-taught (check my GitHub account to see some of them).
- Able to work using the MVC Design Pattern.
- Able to integrate external libraries using CocoaPods or SPM (Swift Package Manager).
- Able to manipulate Local Data Storage methods as Realm and Core Data.

SwiftUI Projects (11/2019 – Present)

- Currently studying and making up some project on the new iOS framework SwiftUI as a self-taught (check my GitHub account to see some of them).
